Teaching writing has never been easier®
WriteShop Primary is a parent-guided curriculum for K-3rd graders with engaging, easy-to-implement activities. You’ll love how lessons accommodate pre-writers as well as beginning and developing writers. The program teaches the skills of the writing process at the very simplest level through hands-on activities, crafts, and picture books.

WriteShop Primary Features

“WriteShop Primary was very easy to teach. I loved that the lessons were easy to adapt to different learning styles.”

—Bonnie, Texas | WriteShop Primary user

In Book B, children learn to:
• Use graphic organizers to plan a story
• Include a beginning, middle, and end
• Plan a story with a problem and solution
• Add story details
• Use a different voice to tell a story
• Choose story endings
• Write or dictate a friendly letter
• Write or dictate a personal narrative
• Retell nursery rhymes and fairy tales in their own words
• Use correct paragraph form and indentation

In Book C, children learn to:
• Plan the main ingredients of a story before beginning to write
• Learn to ask who, what, when, where, and why
• Write entries in a personal journal
• Identify describing words
• Describe an object, a person, and a place
• Summarize contents of familiar books
• Write a book report
• Write a nonfiction article
• Collect facts and use research to write a short report
• Use a simple editing checklist

Where to start?
Start at the level that best fits your child’s thinking skills, not his writing skills. A child’s ability to physically write things down often lags behind his intellect and vocabulary. Key concepts carry over into future books, so don’t worry about “missing” something.

**WriteShop Junior** teaches students to write fiction, nonfiction, and poetry. Creative lessons spark enthusiasm in both eager and resistant writers. And when fun replaces fear, a child's confidence as a writer begins to blossom. Sprinkled with pre-writing games, hands-on projects, and teaching tips, WriteShop Junior’s incremental lessons encourage success. Whether your child is more advanced or just beginning, the program’s flexibility lets you tailor activities to their level.

**WriteShop Junior Features**

- Multisensory appeal
- Incremental lessons
- Positive emphasis on editing & revising
- Focus on voice, word choice, and sentence length
- Creative publishing ideas
- Fiction, nonfiction, short reports, and poetry
- Suggested scripts to help you model writing
- Introduction to writing genres
- Fold-N-Go Grammar
- Flexible teaching schedule
- Tips to help struggling writers
- Ways to tailor lessons to child’s level
- Effective for students with learning challenges

**Where to start?**

Start at the level that best fits your child’s thinking skills, not his writing skills. A child’s ability to physically write things down often lags behind his intellect and vocabulary. Some 4th and 5th graders still have a hard time putting pencil to paper. If you have a child like this, resist the temptation to start him in WriteShop Primary. Placing him in a level that feels “beneath him” socially and emotionally can jeopardize his willingness to write.

WriteShop Junior is a better fit for most upper-elementary students—even if they haven’t had much writing experience. You don’t have to worry about “missing” something because important concepts are reintroduced and practiced in future books. Also, Smaller Steps and Flying Higher activities allow you to adjust assignments to the child’s level of ability.

Parents love WriteShop! This flexible writing program helps new and veteran homeschoolers alike tackle junior high and high school-level writing with confidence. From brainstorming to final draft, the Teacher’s Manual clearly defines your role in the writing process. You’ll love the examples, detailed lesson plans, and step-by-step instructions.

WriteShop I and II set teens on a course for success. Assignments give them a chance to practice creative, expository, narrative, and persuasive writing. With each lesson, they’ll learn and apply new skills. By the end of the lesson—after brainstorming, writing, editing, and revising—they’ll have a polished paper to be proud of!

WriteShop I & II Overview
- Creative and varied lessons and activities
- Incremental lessons that build on earlier skills
- Relates grammar to writing in a practical way through Skill Builders
- Graphic organizers and step-by-step planning strategies
- Strong emphasis on editing and revising
- Effective for students with learning difficulties such as dyslexia or dysgraphia
- Optional video course walks students through each lesson

Where to start?
WriteShop is “ungraded,” so most students should begin in WriteShop I. This level is a good choice for reluctant or first-time WriteShop students who have weak sentence or paragraph skills. WriteShop I helps students pay better attention to content and grammar while teaching important elements of content and style.

Do you have motivated or advanced writers? Even if they love to write, it doesn’t mean they’re writing effectively. Students who already have strong writing skills can still benefit from WriteShop I, especially if they are rambling or wordy writers.

At the **Heart of Learning**  
**Is the Ability to Write**

Do any of your kids have the “writing gene”? Or do you have **writing-phobic children** who resist anything having to do with pencil and paper?

No matter what kind of learner you have, teaching writing can be intimidating or overwhelming. How do you pass on a love of writing to a child who hates it?

*We’ve been there.* We understand the challenges of teaching writing. That’s why we’ve created materials that teach your child how to write—and show you how to teach. Whether your children are very young or well into their teens, WriteShop’s step-by-step lessons will help you introduce and review the building blocks of the writing process.

We invite both new and veteran homeschoolers to explore our website and blog to see how WriteShop can help you along your homeschooling journey.

**Writing Curriculum for All Ages**

WriteShop is an award-winning writing curriculum that has been equipping homeschooling families since 2001. We have resources for all ages and learning styles, from kindergarten through high school.

- **WriteShop Primary.** WriteShop Primary is all about helping young children feel successful. Picture books, games, and crafts make writing fun for readers and nonreaders alike.
- **WriteShop Junior.** This upper-elementary curriculum introduces children to the excitement of writing in different genres. Activities keep kids engaged with fun games that teach skills but don’t require any writing.
- **WriteShop I and II.** Teens tackle descriptive, expository, narrative, and persuasive compositions and essays while learning to use sentence variations, make strong word choices, and improve self-editing skills.

**Do You Have Children with Special Needs?**

> “Love this program ... It is *perfect* for the dyslexic learner because of its explicit, systematic, multisensory instruction. What’s more ... my kids like it!”  
> – Marianne Sunderland, *Homeschooling with Dyslexia* | WriteShop Junior user

Both reluctant writers and students with special needs benefit from similar techniques. Though WriteShop wasn’t specifically created for children with learning disabilities, our methods have proved to be an excellent fit for students with **ADHD, high-functioning autism, dysgraphia,** and **dyslexia** through:

- Targeted, systematic instruction
- Clearly defined expectations
- Reinforcement and repetition
- Bite-sized assignments
- Multisensory activities and projects that build writing skills step by step

While most students with special needs can use a WriteShop level that’s recommended for their age, some (especially those who are socially and emotionally immature) may need to work in a slightly younger level.
